

AnalyticsCore

IMPROVE COMPETITIVENESS WITH REAL-TIME P&L ANALYTICS & VISUALIZATIONS.

AnalyticsCore combines real-time analytics of ISO/RTO and internal data with detailed visualizations to uncover market opportunities and simplify settlement comparisons for swift dispute resolution. ContractCore allows you to:

Conduct Revealing Visual Analyses

Get instant, insightful analyses of ISO/RTO and internal data enabling real-time profit assessment, identification of new trading opportunities, and much more.

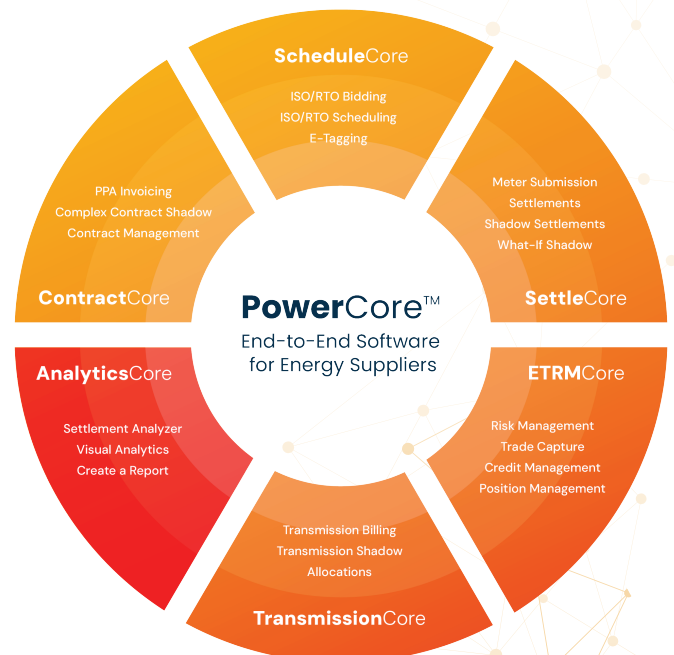

Conserve Resources & Time

Simplify comparisons of invoices and settlement files with intuitive screens and customized reporting that highlights crucial variances and resolves disputes swiftly.

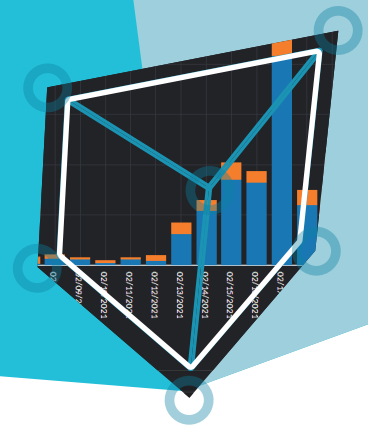

Leverage PowerCore's "ISO Downloader"

AnalyticsCore's "Create-a-Report" module works with the PowerCore "ISO Downloader" to import market data to generate detailed reports and intelligence extracts.

REAL TIME ANALYTICS REVEAL MORE MARKET OPPORTUNITIES.

ANALYTICSCORE FUNCTIONALITY

- **Visual Analytics** - Visual Analytics (VA) is a single “point of truth” that generators, load-serving entities (LSEs), and balancing authorities (BAs) use to compute real-time profit and loss based on ISO/RTO and internal data. It helps identify hidden opportunities and create additional, impactful transactions while generating insightful reporting across an enterprise.
- **Settlements Analyzer** - Save time and resources by easily comparing complex, granular data including ISO invoices, settlement files, and billing determinants to ensure precision in discrepancy identification and dispute resolution.
- **Create-a-Report** - Create-a-Report is a solution that works in tandem with the PowerCore platforms ISO Downloader to import 100% of available market data and stream it through enterprise reporting tools to provide detailed information extracts and insights.

ABOUT POWER SETTLEMENTS

Founded in 2007 and headquartered in Glendora, California, Power Settlements is a proud member of the Yes Energy family of companies.

Power Settlements partners for the long-term with a diverse array of energy suppliers to streamline and automate their operations to meet their performance, growth, and sustainability objectives.

Power Settlements' PowerCore™ platform is a best-in-class solution accompanied by a multi-component service and the industry's best client support. Together, they ensure optimal performance in a complex market terrain incorporating volatility, 24/7 operations, and ever-changing rules, policies, and workflows.
