

ContractCore

BETTER MONITOR, MANAGE, SHADOW & INVOICE ANY TYPE OF CONTRACT.

ContractCore automates the lifecycle of PPAs, tolling, transmission, and other structured contracts. It manages diverse resources and integrates invoicing, shadowing, dispute management, advanced analytics, and more. ContractCore allows you to:

Manage Any Contract for Any Resource

Manage PPAs, EMAs, tolling, transmission, and bilateral agreement settlement and invoicing for any resource (e.g., thermal, renewable, batteries, nuclear, distributed generation, demand response, and more).

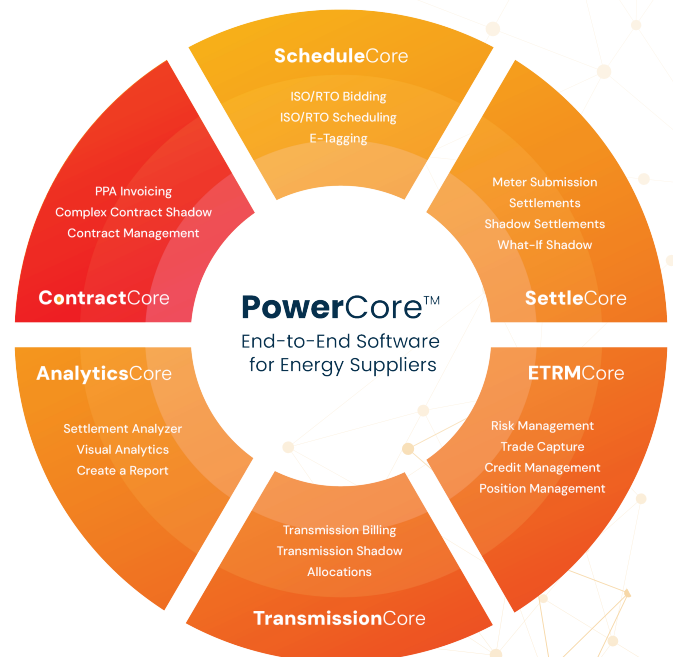

A 360° View of All Contracting Elements

Sophisticated features and automation offer a complete picture of all contract details, enabling proactive management of terms, obligations, and documentation.

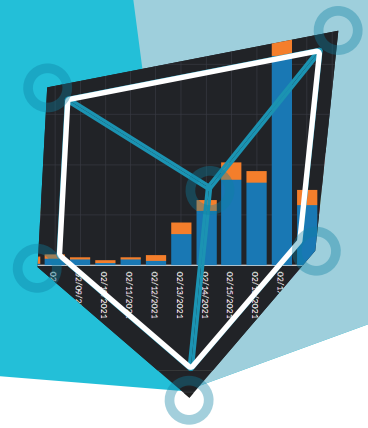

One Solution for All Contracting Functions

Quickly access analytics, perform shadow settlements, validate terms, and manage disputes in one, secure environment that ensures data integrity and compliance.

PROCESS COMPLEX CONTRACTS FOR ISO & BILATERAL MARKETS.

CONTRACTCORE FUNCTIONALITY

- **Contract Management** - ContractCore allows portfolio, credit and risk managers, contract administrators, legal teams, and back-office personnel to monitor and maintain contract asset information, milestones, tasks, alerts, and deliverables so that enterprise commitments are met efficiently and on time.
- **PPA Invoicing** - Save time and effort managing settlements and invoicing for any contract and any resource type. Quickly access time series analytics and reporting with detailed contract data in a single repository.
- **Complex Contract Shadow** - Leave spreadsheets behind for a solution that automates shadow settlement of any agreement with reliability and precision to ensure your enterprise receives all the benefits it's entitled to.

ABOUT POWER SETTLEMENTS

Founded in 2007 and headquartered in Glendora, California, Power Settlements is a proud member of the Yes Energy family of companies.

Power Settlements partners for the long-term with a diverse array of energy suppliers to streamline and automate their operations to meet their performance, growth, and sustainability objectives.

Power Settlements' PowerCore™ platform is a best-in-class solution accompanied by a multi-component service and the industry's best client support. Together, they ensure optimal performance in a complex market terrain incorporating volatility, 24/7 operations, and ever-changing rules, policies, and workflows.
