

ScheduleCore

HARMONIZE YOUR FRONT-OFFICE OPERATIONS WITH A SINGLE SOLUTION.

ScheduleCore unifies bidding, scheduling, and e-Tagging in a hyper-efficient solution to optimize operations, maximize stakeholder value, and improve performance in volatile markets. ScheduleCore allows you to:

Interface, Automate & Bid to Enterprise Goals

Share data with 3rd-party or in-house tools. Select resources, market types, and scheduling entities (for one or multiple hours), then automatically create and submit bids, schedules, financial contracts, e-Tags, and more.

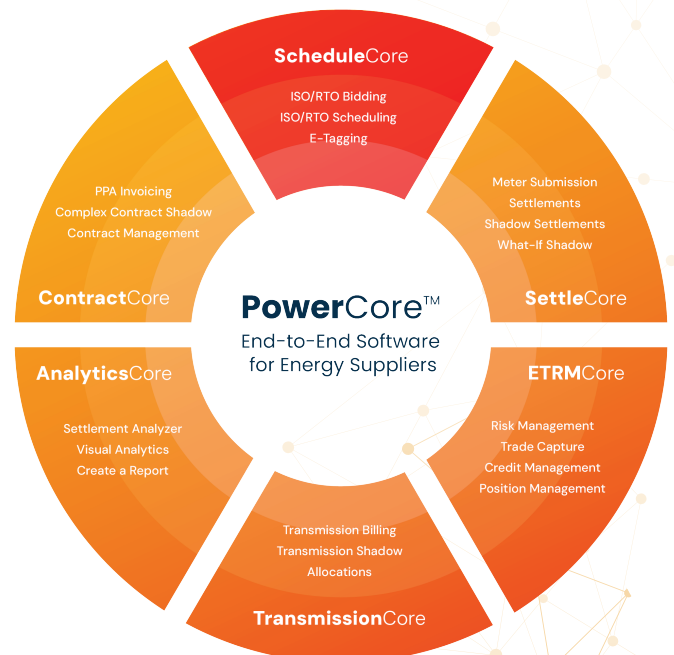

Follow Bids & Get Real-Time Updates

Gain instant visibility into the status of submitted bids. Follow their progress and get instant alerts enabling proactive management and immediate course corrections.

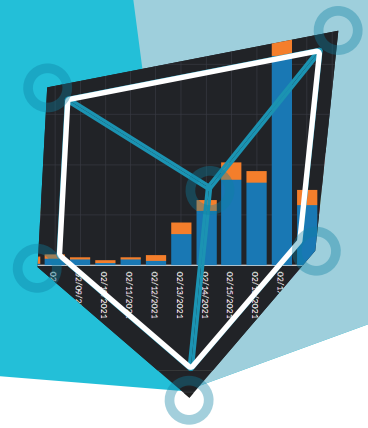

Save Time, Effort & Assure Compliance

Transform manual processes into efficient workflows to unleash creativity and allow more time for enterprise-enhancing tasks. Business rule validations ensure bids and schedules align with market policies and regulations.

ELEVATE ENTERPRISE BIDDING, SCHEDULING & E-TAGGING.

SCHEDULECORE FUNCTIONALITY

- **ISO/RTO Bidding** - Simplify base schedule creation and bid strings for energy and ancillary services into an effortless operation. Then, seamlessly transition tailored, optimized, automatically generated bids to ScheduleCore's ISO/RTO Scheduling module for timely, accurate submission.
- **ISO/RTO Scheduling** - Streamline the submission of bids, schedules, and financial contracts to market operators, transforming a time-consuming task into a precise, automated workflow. Receive post-submission, and real-time visibility into the status of each bid and schedule to enhance the efficacy of operational intelligence and ensure optimized market participation decisions.
- **E-Tagging** - Revolutionize tag lifecycle management with a web-based, customized interface that improves operational efficiencies with advanced reporting and settlement automation capabilities.

ABOUT POWER SETTLEMENTS

Founded in 2007 and headquartered in Glendora, California, Power Settlements is a proud member of the Yes Energy family of companies.

Power Settlements partners for the long-term with a diverse array of energy suppliers to streamline and automate their operations to meet their performance, growth, and sustainability objectives.

Power Settlements' PowerCore™ platform is a best-in-class solution accompanied by a multi-component service and the industry's best client support. Together, they ensure optimal performance in a complex market terrain incorporating volatility, 24/7 operations, and ever-changing rules, policies, and workflows.
